

### CLIMATE ACTION TEAM

- Got **1,418** faculty, staff, and students to participate in the UC's Cool Campus Challenge.
- Received a small Carbon Fund grant for "smart power strips" that were distributed during multiple educational and outreach events around the CCC and energy conservation

### CARBON FUND

- Received and considered **27** applications for both Micro (under \$5000) and Macro (over \$5000) grants from organizations across campus.
- **\$103,887** in funding was awarded to 14 projects.

### ZERO WASTE

- Provided trash talking services to **20+** Waste events, including OPERS Fall Fest, the College graduations as well as 4 ERC graduations
- Hosted the 5th Annual Campus Cleanup - during this 2 hour event, **131** students cleaned up **249** pounds of litter & waste from campus!
- Hosted "Not An Aesthetic, Our Resilience; Re-Rooting Sustainability" dinner and panel with three UCSC alums. Engaged over **60** students in dialogue around environmental justice and a more inclusive zero waste movement.

### EDUCATION & OUTREACH

- Tabled at 8 events on and off campus, a total of **25** hours of tabling, and had **175** new sign ups for the Sustainability Office newsletter
- Talked to and engaged with **266** people interested in Sustainability
- Reached hundreds of people via our social media

### GREEN LABS

- Took over Styrofoam recycling from EH&S and held two collection days
- Recertified **10** Green Labs and certified **7** new labs bringing the total of certified labs to **35**
- Worked with Energy Dept to complete phase 1 & 2 of the Equipment Retrofit Program. Replacing **6 - 80** freezers and **17-20** freezers
- Got information about sustainable lab practices and the Green Lab Program into EH&S's new lab orientation package

### SUSTAINABILITY CERTIFICATE PROGRAM

- Engaged **3** faculty, **7** staff and **1** alumni instructors.
- Had **72** unique participants total and graduated **23** participants in Spring 2019

### STUDENT SUSTAINABILITY ADVISERS

- Conducted **4** sustainability implementation projects with tangible benefit to the colleges, including: researched/planned a pilot to test the viability of a durable rental system to reduce single-use bio-plastics in college events; hosted an Environmental Justice-themed camping trip with 10 students to Manresa State Beach in Watsonville; assessed best practices and presented recommendations to Housing Facilities about standardizing residential composting service.
- Hosted **34** sustainability-themed educational events in the residential colleges to educate their peers.

### GREEN OFFICE CERTIFICATION PROGRAM

- Conducted a program overhaul to better align educational messaging directly with the Employee Sustainability Certificate program curricula and promote social justice and inclusive sustainability on campus.
